## Housing Mounts

### MT9210, MT9212, MT9223 MT9215, MT9215S, MT9217, MT9219

Aigis offers a variety of mounting options for housing installations with up to a 20 lb (9 kg) rated load. These models are made of lightweight aluminum and feature welded construction, providing an extremely rigid camera mount. In addition, the versatile swivel head rotates 360° and tilts 180° for maximum flexibility.

The feed-through versions have a center opening to allow wiring to pass inside the mount shaft hidden from view. Using these products to mount a housing specifically designed for bottom feed-through wiring, such as the HS948x series, creates a clean, wire-free look.

# SPECIFICATIONS

## INDOOR/OUTDOOR HOUSING MOUNTS

MODEL	DESCRIPTION	SIZE	MOUNTING HEAD	MAXIMUM LOAD	WEIGHT	FOR USE WITH
<b>STANDARD MODELS* (NON FEED-THROUGH)</b>
