

NEW!

SIMPLE IS BETTER! DMC-10 Intercom Kit

Need to reach an audience in every corner of the house? Systems can be configured for up to 16 stations. The DMC-10 can be intercom-only or play music of your choice. You can play your favorite background music from any music source (i.e., iPod or MP3 player). It uniquely blends advanced and standard features at an economical cost. Faceplates with progressive styling make it even more distinctive. No wonder the DMC-10 is the talk of the industry.

(Note: Standard DMC-10 Kit contains 4 room stations, 1 Door station and a hub) The Audio Wall Plate, Patio Station and removable faceplates are sold separately.
